

KANSAS EMIGRATION COMPANIES.—A constitution for a Kansas emigrant company, for northern Ohio, has been formed at Oberlin. Another has been formed at Millersburg, Holmes county, Ohio.

The second company of emigrants from Boston, for Kansas, have started for that destination. The noble efforts of these companies, may possibly thwart the efforts of the cohorts of slavery and secure freedom for Kansas and Nebraska. Let them persevere.

RAISING THE HULL OF THE STEAMER ERIE. Thirteen years ago the steamer Erie was burned on Lake Erie, below Dunkirk, and many lives were lost. Recently an eastern company came on with machinery and raised the hull. They have recovered about \$20,000 in gold and silver, melted and unmelted, and with the article of iron, etc. about the hull, will secure enough to pay them their expenses in raising her.

Fifty brothels in Philadelphia have been broken up, and over fifty-five visitors, embracing old and young men were arrested and their names published, high and low.

Mr. Grimes, just elected governor of Iowa, is a native of Hillsborough, New Hampshire, the town in which President Pierce was born.

Tribute of Respect.

Perrysburg, Aug. 26, 1854.

At a meeting of Fort Meigs Lodge No. 86 I. O. O. F. the deaths of bros. Wm. H. COURSER and ALBERT D. WRIGHT, (Past Grand of this Lodge) and JACOB KINGFIELD, members, were announced, whereupon the following resolutions were unanimously adopted:

Resolved, That we do sincerely mourn the loss of our deceased brothers, who were worthy members of this Lodge and of community; and that we do earnestly sympathize with their bereaved and afflicted families in this dispensation of divine Providence which has made their homes desolate.

Resolved, That as a mark of respect this room be trimmed with mourning, and the members wear crape on the left arm for thirty days.

Resolved, That these resolutions be published in the papers of this place, and that a copy be sent to each of their afflicted families.

F. R. MILLER, N. G.

J. S. NORTON, Sec.

To the people of Wood and adjoining counties we offer renewed inducements to plant orchards of choice fruit.

MADDOCKS, PERIGO & PRENTICE.

Toledo, March 20, 1854.—4m2

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearers all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention: DR. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the

HON. EDWARD EVERETT, Senator of the U. S. ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England. JOHN B. FITZPATRICK, Cath. Bishop of Boston. Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by

HON. W. L. MARCY, Secretary of State. WM. B. ASTOR, the richest man in America. S. LELAND & Co., Prop'rs of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.

Sept. 2, 1854.—23w5&2

Mechanics, Inventors and Manufacturers.

\$570 IN CASH PRIZES.—Volume Ten of the "SCIENTIFIC AMERICAN" commences on the 16th of September. It is chiefly devoted to the advancement of the interests of Mechanics, Inventors, Manufacturers and Farmers, and is edited by men practically skilled in the arts and sciences. Probably no other journal of the same character is so extensively circulated, or so generally esteemed for its practical ability. Nearly all the valuable patents, which issue weekly from the patent office, are illustrated with engravings, and the claims of all the patents are published regularly in its columns as they are issued, thus making it a perfect Scientific and Mechanical Encyclopedia of information upon the subjects of Mechanical Improvements, Chemistry, Engineering, and the Sciences generally. It is published weekly in quarto form suitable for binding, and each volume contains 416 pages of reading matter, several hundred engravings, with a full and complete index. Its circulation on the last volume exceeded 23,000 copies per week, and the practical receipts in one volume are worth to any family much more than the subscription price.

The following Cash Prizes are offered by the publishers for the 14 largest lists of subscribers sent in by the 1st of January, 1855:—\$100 will be given for the largest list; \$75 for the second; \$65 for the third; \$55 for the fourth; \$50 for the fifth; \$45 for the sixth; \$40 for the seventh; \$35 for the eighth; \$30 for the ninth; \$25 for the tenth; \$20 for the eleventh; \$15 for the twelfth; \$10 for the thirteenth; and \$5 for the fourteenth. The cash will be paid to the order of the successful competitor immediately after the 1st of January, 1855.

TERMS.—One copy one year \$2; one copy six months \$1; five copies six months \$4; ten copies six months \$8; ten copies twelve months \$15; fifteen copies twelve months \$22; twenty copies twelve months \$28 in advance.

No number of subscriptions above twenty can be taken at less than \$1.40 each. Names can be sent in at different times and from different post offices.

Southern and western money taken for subscriptions. Letters should be directed, post-paid, to MUNN & Co. 128 Fulton street, New York.

Messrs. Munn & Co. are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge, in regard to the novelty of their improvements.
